The Problem: Canteen Pain Points

Long Queues

During peak hours, long queues cause frustration.

Wasted Time

Reduced productivity due to waiting in line.

Limited Discovery

Difficulty discovering daily specials quickly.

Inefficient Management

Canteen staff struggle with order management.

Made with GAMMA

Our Solution: The Canteen App

Mobile Ordering

Browse menus, order, and pay via mobile app.
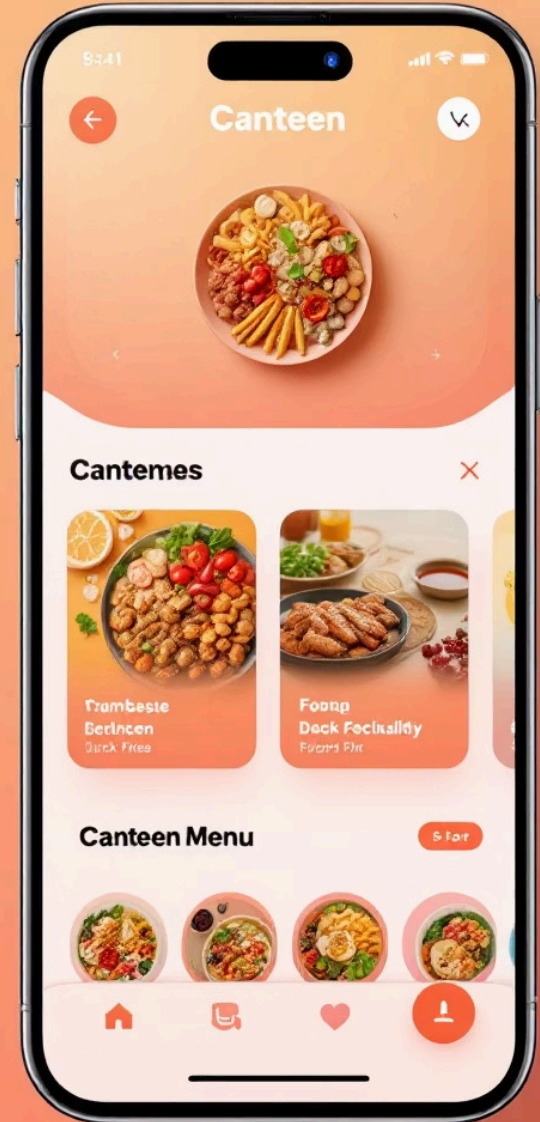

Real-Time Tracking

Track your order with real-time updates.

Firebase Integration

Secure and scalable backend powered by Firebase.

User-Friendly Interface

Designed for speed and convenience.
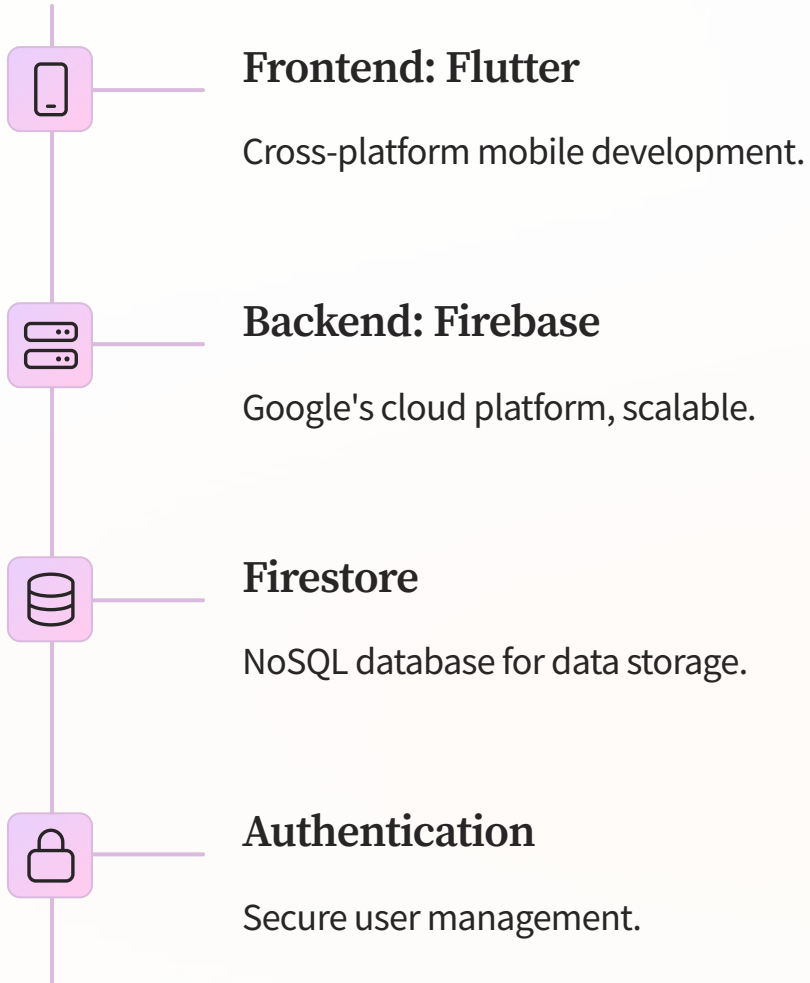

Key Features & Benefits
